A photograph of two women in lingerie posing in a room. The woman on the left has blonde hair and is wearing a pink polka-dot top and matching thong. The woman on the right has dark hair and is wearing a striped top and matching thong. They are both wearing fishnet stockings and high-heeled shoes. The background shows a stone wall and a bed with leopard-print bedding.

# DOING IT DOGGIE STYLE

Is it doggy-style or doggie-style? No matter, it's still the most preferred sex position by male humans and canines. Woof! For lots of reasons. Firstly, it's said to be one of the easiest ways to find your woman's elusive G-spot. It's also a position that men get to feel powerful and can see the mechanics of what's going on at the same time. For many, even though they won't say it, is easy access to her little brown flower for a quick finger or penis dip.

### **Is there only one way to doggy?**

Yes, with a hundred or so variations.

The basic position is on all fours. That is knees and palms, but what if you go down on your elbow? What if you go down to your shoulders. They are all doggy positions.

But what if she rises off her knees? No, that's more of an ostrich or giraffe position.

What if she raises one leg? We call that 'the peeing doggy' because that's what male dogs look like when they do.

What if she lowers herself at the knees? Yes, that position counts. That's good, but only if you're able to access that fine pussy, or she's on a higher level than your cock.

### **Does it count if two guys are involved?**

*What sort of question is that? Of course it does. (No, it doesn't.) Yes, it does! (Nope, it don't).*

When you're talking about getting your girl into a threeway with another guy, we don't think that anyone has actually defined those positions, but if she's facing down and you're getting to top spot, then yes, that part is a doggy. We consulted the almost 250 positions of the Kama Sutra but alas, no mention of this type of threeway there.

But if you're keeping score, we do not think that if the female is face up in the threeway and you're on top, then 'nope,' that is not a doggy because she's not on her hands and knees anymore. Either way, if you're in a threesome, then just enjoy the scene and don't worry about animal designations.

### **Her butt hole's exposed so be careful?**

*It's all in the approach to her behind. If she lets you go there, then full sperm ahead.*

It's a difficult thing to avoid when her cute little butt hole is staring right back at you. No doubt that a major part of the appeal of doin' it doggy style is the allure of the anus. Right there in front of you, what do you do with it?

Assuming she'll let you do something, then by all means go for it. If it's just rubbing around the area, or if you can dip a finger or two into it, or if that raging cock of yours gets an invitation to go inside, then go for it.

Anal sex can be a lot of fun for both partners, but be sure it's approved before going in the back. Here's to hoping you can.

### **Not for guys only?**

*No, its not just for us guys only. Just like the Virginia motto, 'doggy is for lovers.'*

Of course we guys do not have an exclusive license to the doggy position. It's there for anyone willing to follow the rules, and the only rule is that the sex be good for all involved. And if those involved are two women, then the doggy is a must do.

Usually there will be a strap-on involved because the position does involve fucking, actual insertion. You can't count it if it doesn't go in the hole(s).

Remember, doggy style is for the benefit and enjoyment of the one in the doggy position. The dildo attached to the harness doesn't feel anything so be sure the recipient is enjoying. 

All girls depicted at least 18 yrs of age. Must be over 18 to call. All major Credit Cards accepted.

I LOVE TO VOLUNTEER

*When my mom was in college, she told me she was a candy striper. I had never heard of that but when she told me, I thought that I'd want to do it too. She said it is all about helping people and the nurses and doctors who work at hospitals.*

*As a matter of fact, that's how she met dad!*

## I was just trying to help

Last week I turned 19 and also celebrated six months on the job. I'm what's known as a candy striper – someone who helps out the registered nurses at a hospital with non-medical stuff. My job usually consists of emptying bedpans, cleaning floors, being sure there are enough supplies on hand. I love being able to help people and my volunteering gets me college credits towards my degree. The nurses and doctors are great at the hospital where I work and I think they appreciate me, too. They give me stuff to do that is a little above my candy striper's responsibilities. I've hung out with the surgery prep nurses when things were slow so I could learn more and be more helpful.

This involves many different things to do depending on the type of surgery to be performed. For a man's chest or abdominal operation, this means shaving his chest. For a groin injury, I've shaved a guy's groin, but that was only once because the supervising nurse was hanging over me, supervising. Shel-

would give them a choice of a straight razor or a twin blade. I asked what the difference is and as it was explained to me the straight razor is more "old school" and many older patients prefer it. I also think some like the look of a nurse holding that instrument. It's kind of a turn on, she said to me on the side.

Admittedly, there are some men that seem to get turned on by this, but most are not. As a matter of fact, the younger ones are more embarrassed than the older ones. Maybe it's the years that have made them more accommodating. Turns out some men are just more sensitive down there and they react by having an erection. I guess you know where this is going. Today, the supervising nurse called in sick and since we were short staffed, asked if I could do a few of her things, including shaving a patient that was due in surgery in two hours.

I've tried not to pay attention, but if the guy is good looking and turns out to have a nice penis, I may take me a bit longer to shave him. Maybe even lather him up a bit more. Now, I have never done anything with any patient but have thought about it a few times. Some guys have even asked me for a little more titillation, but I've always refused.

# Lollypop-ers

I LOVE TO VOLUNTEER

Today, this nicely built 30-something guy was in for groin surgery. He had already been there for a couple days and I noticed him as I walked around. When I learned why he was in the hospital and I would be prepping him, I kinda got a bit more excited than normal. His surgery was scheduled for 10:00 am. The patient – let's call him Bobby – was sleeping when I entered his room. I gently clanged the stainless bowl with the warm water as I pushed the cart near to his bed.

He rustled a bit and half-opened his eyes. When he saw me, they opened even wider. "Good morning." I whispered. "Are you ready for your surgery today?" He nodded sleepily as I told him I was there to shave him. He said okay quietly and rolled over on his back. I asked him to undo his hospital gown and if he could pull it up or take it off altogether. He pulled it up around his neck as I showed him that I was warming my hand and that the water was warm.

He raised his arms and put both hands under his head intertwining his fingers. Without even asking, I squirted some shaving gel onto my hands working it into a small lather. I started applying it just below his navel and rubbed the gel onto his groin area watching the foam get bigger. From his belly button to his upper thighs he was a bit more hairy than I expected.

I lathered him to where his penis meets the belly and shaved it down to there. He had held pretty still so far. Now it was time for the area around his penis. I noticed that he had

some hair on it which meant I had to shave the shaft, too. I had not done this before and was afraid I might cut the patient there.

He sensed this and in a joking manner said that I probably wouldn't cut him if it was hard. I kept this in mind as I lathered him down there. I didn't know what to do with his balls, they had hair on them, too but was never told what to do about that area. As you might expect, he started getting harder from the half-hard stage he was at. I told him I had to shave some of his shaft and it worked better if he was harder. He looked at me, agreeing, smiling, and closed his eyes. I stroked the base to work in the lather. His cock jerked a few times until it was rock hard and a good eight inches or more. Professionally speaking, of course.

I finished lathering to the sides of his penis and pushed it against his belly so I could get some foam onto his balls. He squirmed at my touching him there and said he wasn't expecting that. I told him that my orders were to clean shave him and that's what I had to do. He settled back and I started with the twin-blade razor around his penis, washing the blade off as it accumulated hair and lather. I gently held his erect penis just below the head as I pulled the razor down his shaft. I did it slowly and carefully squeezing his cock a little as I finished. Then on to his balls. I pulled the skin tight so there less chance of cutting him. As I finished shaving his

balls, my free hand took the liberty of giving a little squeeze as I finished each one. His eyes still closed, he smiled as I fingered and moved his balls around.

"Finished?" he asked.

"Yes, I just have to wash you up." I said softly. Taking the wash cloth, I dipped it into the warm clean water in the second bowl; wrung it out and started to wipe the excess foam off him. Taking it slow, I stroked his still-hard cock under the cloth. I could tell he tightened his cock muscles as I squeezed it. I put the cloth back into the water to rinse it off, but continued stroking him with my free hand as if it was part of the job. A pat down of his balls let out a small whimper and I apologized if I was too hard on them. He said 'no' looking at his cock and pointed to a spot I had missed. I used my finger to wipe that last white morsel of lather.

I then opened a bottle of fragrance-free lotion and began rubbing it into his groin area. Of course I took some extra time on his cock and balls. He just laid there as I rubbed him harder and stroked him longer until I lost control and jerked him to a climax. His cum spewed down the shaft and over my fist still grasped around his cock. He did nothing to stop it himself and when I realized what I had done, I began to stammer and apologize, but he said it was nice and not to worry, just clean it up for him.

I got the wash cloth, rinsed it again, and wiped it up. I

turned to him to see he was touching himself to check my work. I hastily gathered myself and my stuff and left his room with a half hour to spare. I went to the nurse's lounge and sat down contemplating what I had done. Later I learned that the surgery went well and no one was the wiser, or so I thought.

Then, a couple weeks later when I was back at the hospital, I heard a story of how a patient had gone to the hospital for surgery and one of the prep nurses masturbated him before surgery. Apparently, that was the only surgery that day that required shaving prep, and it didn't take much to figure out it was me. I was bracing for being reprimanded and then fired.

Fortunately for me, it was the hospital administrator's son and he took full responsibility for the event. Apparently, he said that I should not be fired for something I was coerced into doing. Besides, I was just a volunteer and there was no one they could hold this over. I worked for only another week and the looks that I kept getting from the nurses was more than I wanted to deal with.

I think often back to that morning and masturbate myself. I think what a sneaky thing to do and how ballsy for him to let it happen knowing his dad ran the hospital. When I meet my new man, I think I'll shave him and have him shave me. I may even try a straight razor, but I better practice on a balloon first to get some practice in. I bet the sex afterwards will be great! With my man, that is, not the balloon!

The doTERRA ATHLETE'S KIT

These statements have not been evaluated by the FDA. This product is not intended to diagnose, cure, or prevent disease. Individual body chemistry will affect the results of each oil. Certified pure therapeutic grade essential oils are very potent. Do not use CPTG essential oils past your own understanding. Work with your Wellness Advocate closely until properly educated and confident with your ability to safely use essential oils.

\* The doTERRA business opportunity is robust and growing. While the majority of Wellness Advocates are focused on the use of essential oils for the benefit of their family and friends, for those Wellness Advocates that desire to focus on the building of "for-profit" business by working full-time in achieving the leadership ranks, there is a significant business opportunity as noted above. Of course, each Wellness Advocate's results will depend on the time and effort they put into building their own doTerra business.
